

# Bio-Desolve<sup>®</sup> PRO TURF U.S. PROGRAM

## BETTER TURF. BETTER GAME

### The Bio-Desolve Pro Turf Program consists of two parts:

#### 1. Pro Turf Soil Carbon Mix:

- Promotes proper soil structure
- Extends life of Nitrogen applications
- Improves release of nutrients already in soil
- Reduces soil born diseases

#### 2. Pro Turf LX7 Foliar:

- Reduces thatch
- Aids in uptake of nutrients and expulsion of waste
- Enables plants to better fight off disease attacks
- Aids in water and fertilizer penetration

### Why Use the Bio-Desolve Pro Turf Program?

- Reduce current fertilizer costs by 30%
- Reduce current fungicide, herbicide and pesticide costs by 20 - 30%
- Reduce and/or eliminate the use of surfactants
- Reduce water usage
- Reduce need for aerating
- Reduce amount of time spent record keeping (eg. IPM program in Canada)
- Pays for itself in the first year
